D.T.E. 03-60 December 4, 2003 Respondent: Don Price

Question 16:

For each ILEC wire center identified in response to question 15, identify the total number of voice-grade equivalent lines you are providing to customers in that wire center from your switch(es) identified in response to question 14. For purposes of this question, "voice-grade equivalent lines" should be defined consistent with the FCC's use of the term. See, e.g. FCC Form 477, Instructions for the Local Competition and Broadband Reporting Form.

MCI's Supplemental Response:

The requested information is confidential, competitively sensitive trade secret information. Subject to the protections of the protective order in this proceeding, MCI is submitting the requested information in the attached confidential document.

D.T.E. 03-60 December 4, 2003 Respondent: Don Price

Question 17:

With respect to the voice-grade equivalent lines identified in response to the above question, separately indicate the number being provided to: (a) residential customers; (b) business customers to whom you provide only voice-grade or DS0 lines; and (c) business customers to whom you provide DS1, ISDN-PRI, or other high capacity lines. For purposes of this question, "high capacity" means DS1 or equivalent, or higher capacity lines, including, but not limited to DS1, ISDN-PRI, DS3, OCn.

MCI's Supplemental Response:

See response to question 16. None of the lines listed in the response to question 16 are provided to residential customers.

D.T.E. 03-60 December 4, 2003 Respondent: Don Price

Question 18:

With respect to the voice-grade equivalent lines identified in response to the above question, indicate the types of loops over which they are being provided (e.g., an unbundled loop leased from the incumbent LEC, a copper or fiber loop leased from a third party, a self-supplied copper or fiber loop, or a coaxial cable loop).

MCI's Supplemental Response:

See response to question 16.
